## Can One Person Really Make a Difference in the Community?

Does this describe you?

- Are you worried about the declining respect for moral values in our laws and culture?
- Do you wonder if anyone else believes like you that human life is sacred, that the family is under attack, and that neither liberals or conservatives speak for you on every issue?
- Have you wanted to make your voice heard in the public policy arena but feel unprepared and isolated?
- Are you looking for well researched and persuasive arguments to give your elected officials and others?
- Do you hope to change things for the better in Hawaii?

“Educate your children to self-control, to the habit of holding passion and prejudice and evil tendencies subject to an upright and reasoning will, and you have done much to abolish misery from their future and crimes from society.”  
—Benjamin Franklin
