

Community Action Network Training Seminar

You're invited!

Attend the Upcoming Community Action Network
(CAN) Training Seminar
being offered by Hawaii Family Forum.

Community Action Network training seminars are informational workshops designed to encourage participation in the legislative process. The Seminar is scheduled for:

**February 4, 2010 (Thursday)
7:00—9:00 p.m.**

St. Stephen Diocesan Center Auditorium

This seminar will teach individuals in our church community how to turn concerns, frustration, and helplessness regarding anti-family government policies, into effective confident action that will have a positive impact on our families, neighborhoods, and community. There is no charge to attend the seminar.

Free information manuals will be presented to all seminar participants.

Learn what's happening with civil unions (same-sex "marriage", physician-assisted suicide, domestic violence, gambling, human trafficking and poverty and homelessness.

What are these, and other, significant cultural issues that we are currently facing in the State of Hawaii? Can one person really make a difference? How can you better understand the legislative process? What can pastors and churches do to become more active? What are the legal restrictions? How active were our founding fathers?

To sign up: email Eva Andrade @
info@hawaiifamilyforum.org or call 203-6704.

Contact Hawaii Family Forum at (808) 203-6704 for more information .

Why should we be involved?

The socio-political process does not belong to the “other side” alone. Citizens of faith can and must let their voices be heard! A faith that fails to address all aspects of life appears too trivial to be true. And what hangs in our culture’s balance is anything but trivial pursuit. The essence of faith—love for God, purity, reverence for life, family stability, and receptivity to outreach--demands action.

If accidents keep occurring at an unregulated intersection, that intersection needs a traffic light--not more ambulances!

Active Citizenship

The preservation of values depends upon the people's willingness to assume personal responsibility for the future course of society. When the enemies of truth and justice move to destroy everything that has made America great, citizens are obligated to boldly challenge them. How can we stand by in silence when babies are being aborted, pornography use is on the rise, and humanistic philosophies saturate our schools?

As stewards of a precious national heritage, we can't afford to hesitate.

Become informed! Attend this Community Action Network Training workshop.

“As people like you, the faces and voices of the community, become involved for the sake of our families, *Ua mau ke 'ea o ka 'āina i ka pono* will reign throughout our islands.”

—Dennis Arakaki, Hawaii Family Forum
