## **HB 675 (Physician-Assisted Suicide) Inappropriately Fast-Track Referred Directly to Judiciary Committee, Skipped Health Committee**

WE HAVE TO ACT NOW!!!

HB 675, the physician assisted suicide bill, has been referred directly to the House Judiciary Committee, skipping over the Health Committee. This is an attempt to fast track assisted suicide and is not an appropriate course of action.

Contact Speaker Calvin Say's office at 586-6100 ASAP and urge him to re-refer the bill that deals with medical & health care practice to the health committee first. (HB 675)

Please let us know if you've done this and what result.

Mahalo.
